## SKILLS

- Java Script
- Typo Script
- Python
- C#
- Java
- Php
- Html
- CSS
- Node.js
- MS SQL
- Hanna
- Angular
- .Net
- SAP
- JIRA
- Git
- Photoshop
- After Effect
- Illustrator
- AWS

## PROFESSIONAL EXPERIENCES

### Software Engineer

Pristine Solutions (Pvt.) Ltd | May 2020 – Present

- Spearheaded the development of a Sales Force Automation (SFA) system, facilitating seamless sales operations and enhancing productivity.
- Implemented web development using **Angular** for the front-end interface, ensuring a user-friendly and responsive design.
- Developed APIs utilizing **.NET** MVC architecture, enabling efficient communication between various system components.
- Designed and optimized the database architecture using **MS SQL** Server, ensuring scalability and performance.
- Implemented **SAP integration** within the Sales Force Automation (SFA) system using Node.js as a middleware layer, utilizing SAP service layers for bidirectional data transfer between SAP and SFA.

### SLIIT

E-commerce Website|

- Developed a web application for a clothing store utilizing **PHP, MySQL, HTML, JavaScript, and CSS**. This solution enhances operational efficiency by replacing the existing Excel-based manual system, streamlining processes, and optimizing overall management of operations and activities.
